No. 1 (February 2002)

REVIEW

LUSHAI, G. *and* LOXDALE, H. D. The biological improbability of a clone 1

RESEARCH PAPERS

HOLT, S. J., CRESS, W. A. *and* VAN STANDEN, J. Evidence for dynamic alteration in histone gene clusters *Caenorhabditis elegans*: a topoisomerase II conection? 11

SAVARIT, F., *and* FERVEUR, J.-F. Genetic study of the production of sexually dimorphic cuticular hydrocarbons in relation with the sex-determination gene *transformer* in *Drosophila melanogaster* 23

BERTICAT, C., BOQUIEN, G., RAYMOND, M. *and* CHEVILLON, C. Insecticide resistance genes induce a mating competition cost in *Culex pipiens* mosquitoes 41

AULARD, S., DAVID, J. R. *and* LEMEUNIER, F. Chromosomal inversion polymorphism in Afrotropical populations of *Drosophila melanogaster* 49

CIVETTA, A., WALDRIP-DAIL, H. M. *and* CLARK, A. G. An introgression approach to mapping differences in mating success and sperm competitive ability in *Drosophila simulans* and *D. sechellia* 65

AULCHENKO, Y. S., TEUSCHER, F., SWALVE, H. H. *and* GUIARD, V. Comparison of methods used for recovering the line origin of allelles in a cross between outbred lines 75

WU, R., MA, C.-X., WU, S. S. *and* ZENG, Z.-B. Linkage mapping of sex-specific differences 85

WALLING, G. A., HALEY, C. S., PEREZ-ENCISO, M., THOMPSON, R. *and* VISSCHER, P. M. On the mapping of quantitative trait loci at marker and non-marker locations 97

BOOK REVIEWS

Genes, Categories and Species. *Jody Hey*. J. Brookfield 107

The Mathematical Theory of Selection, Recombination and Mutation. *R. Bürger*. W. G. Hill 108

BOOKS RECEIVED 109

No. 2 (April 2002)

MOHAN, K. N., RAY, P. *and* CHANDRA, H. S. Characterization of the genome of the mealybug *Planococcus lilacinus*, a model organism for studying whole-chromosome imprinting and inactivation 111

HALES, D. F., SLOANE, M. A., WILSON, A. C. C. *and* SUNNUCKS, P. Segregation of autosomes during spermatogenesis in the peach-potato aphid (*Myzus persicae*) (Sulzer) (Hemiptera: Aphididae) 119

BARTON, N. H. *and* NAVARRO, A. Extending the coalescent to multilocus systems: the case of balancing selection 129

HALLAS, R., SCHIFFER, M. *and* HOFFMANN, A. A. Clinal variation in *Drosophila serrata* for stress resistance and body size 141

McMAHON, C., SUREAU, G. *and* FERVEUR, J.-F. Mapping of genetic loci that change pheromone discrimination in *Drosophila* males 149

DENG, H.-W. *and* LI, J. The effects of selected sampling on the transmission disequilibrium test of a quantitative trait locus 161

CARLBORG, Ö. *and* ANDERSSON, L. Use of randomization testing to detect multiple epistatic QTLs 175

YI, N. *and* XU, S. Mapping quantitative trait loci with epistatic effects 185

BOOK REVIEWS
Managing Plant Genetic Diversity. *Eds. J. M. M. Engels, V. Ramanatha Rao, A. H. D. Brown and M. T. Jackson*. Q. C. B. Cronk 199
Why Animal Experimentation Matters – The Use of Animals in Medical Research. *Eds. E. F. Paul and J. Paul*. M. Appleby 199
BOOKS RECEIVED 201

No. 3 (June 2002)

HALES, D. F., WILSON, A. C. C., SLOANE, M. A., SIMON, J.-C., LE GALLIC, J.-F. *and* SUNNUCKS, P. Lack of detectable genetic recombination on the X chromosome during the parthenogenetic production of female and male aphids 203
GEIGER-THORNSBERRY, G. L. *and* MACKAY, T. F. C. Association of single-nucleotide polymorphisms at the *Delta* locus with genotype by environment interaction for sensory bristle number in *Drosophila melanogaster* 211
WELLS, G. P. *and* YOUNG, A. G. Effects of seed dispersal on spatial genetic structure in populations of *Rutidosis leptorrhychoides* with different levels of correlated paternity 219
THOMAS, S. C. *and* HILL, W. G. Sibship reconstruction in hierarchical population structures using Markov chain Monte Carlo techniques 227
WU, R., MA, C.-X., CHANG, M., LITTELL, R. C., WU, S. S., YIN, T., HUANG, M., WANG, M. *and* CASELLA, G. A logistic mixture model for characterizing genetic determinants causing differentiation in growth trajectories 235
PÉREZ-ENCISO, M. *and* ROUSSOT, O. A method for computing identity by descent probabilities and quantitative trait loci mapping with dominant (AFLP) markers 247
KIM, J., DAVIS, S. K. *and* TAYLOR, J. F. Application of non-parametric bootstrap methods to estimate confidence intervals for QTL location in a beef cattle QTL experimental population 259
BOOK REVIEW
Perspectives on Genetics. Anecdotal, Historical and Critical Commentaries 1987–1998. *Eds. J. F. Crow and W. F. Dove*. D. Cove 265
